

Lockpicking Meeting

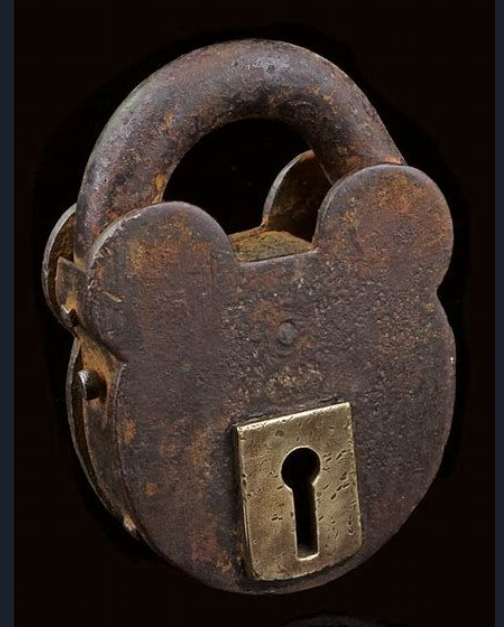

Legality

- Please note: lockpicking and lockpicking tools are illegal in some states/countries
- Check your local/state/countries laws before buying lockpicking tools
- Don't use our tools for anything evil (you must return at end of meeting)

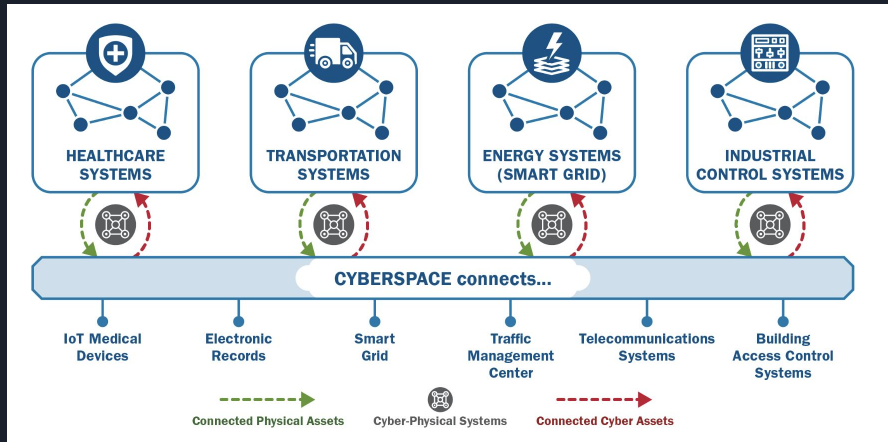

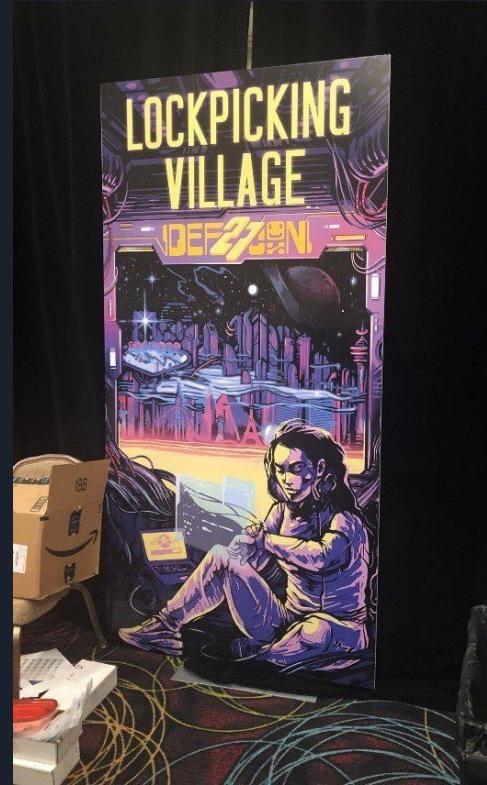

History of Locks/Lockpicking

- Locks have been used for over 6000 years
- Old locks worked very similar to how basic locks work today
- Lockpicking has been around since locks were invented
- Lockpicking today is similar to lockpicking back then

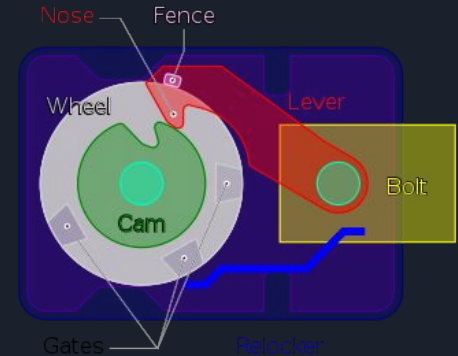

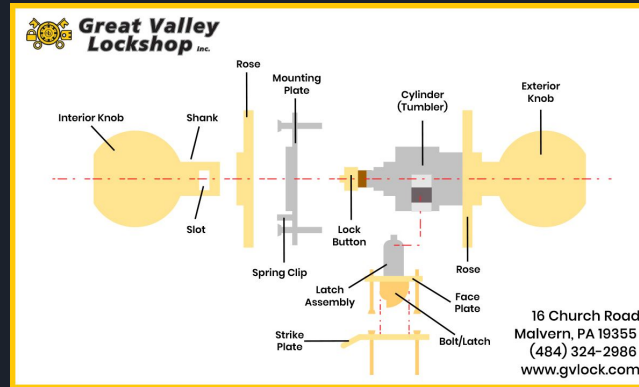

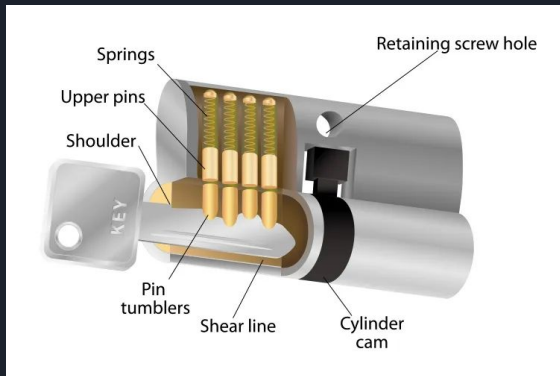

Locks and Cybersecurity

- History of how *not* to approach security
- Part of the “hacking” subculture
- Both require you to practice, be persistent, and be curious
- Physical security is relevant to cybersecurity

Lock types

- Pin Tumblers, Deadbolts, and combinations
- They are all pickable
- Today will be mostly tumblers though

How to break locks

- Live Demo!!
- Links to videos if you want to review
